The first part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation
 
$$f(x) = \int_0^x \frac{1}{1+t^2} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $f(x)$  is an odd function and that it satisfies the inequality
 
$$f(x) \leq \frac{\pi}{4} \quad \text{for } x \geq 0.$$

In the second part, we consider the function  $g(x)$  defined by the equation
 
$$g(x) = \int_0^x \frac{t}{1+t^2} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $g(x)$  is an even function and that it satisfies the inequality
 
$$g(x) \leq \frac{\pi}{4} \quad \text{for } x \geq 0.$$

The third part of the paper is devoted to the study of the function  $h(x)$  defined by the equation
 
$$h(x) = \int_0^x \frac{1}{1+t^4} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $h(x)$  is an even function and that it satisfies the inequality
 
$$h(x) \leq \frac{\pi}{4} \quad \text{for } x \geq 0.$$

Finally, in the fourth part, we consider the function  $k(x)$  defined by the equation
 
$$k(x) = \int_0^x \frac{t^2}{1+t^4} dt$$
 for  $x \in \mathbb{R}$ . It is shown that  $k(x)$  is an odd function and that it satisfies the inequality
 
$$k(x) \leq \frac{\pi}{4} \quad \text{for } x \geq 0.$$

Copied from the above mentioned article:

"One (cemetery) on the Ernest Lenz farm near Lone Tree, for example, tells some of the story of the David Trowbridge family. Mr. Trowbridge had two wives. The first, Mary, died July 26, 1862, at the age of 29, according to the marker for her grave. The date of Jane's death, presumably the second wife, is not listed on her stone. There is also a stone for a Trowbridge infant.

"The cemetery was marked on an 1870 atlas of Johnson County. Records indicate that the farm was owned then by a Trowbridge family. The farm was then in Lincoln township; now it is in Pleasant Valley township.

"The cemetery was again indicated in an 1875 atlas, and the farm was still owned by the Trowbridges. No one is certain, however, just when the cemetery was started or how long it was maintained. Its remaining stones are dated 1862 and 1863."

Question 1: The following information was obtained from a survey of 100 students in a statistics class. The data are summarized in the following table. The first column shows the number of students who answered each question correctly, and the second column shows the percentage of students who answered each question correctly.

Answer: The following table shows the number of students who answered each question correctly, and the percentage of students who answered each question correctly.

SCOTT TOWNSHIP

Iowa City Press-Citizen, Thursday, 9 August 1934 -- Excerpt from article by Mabel Leech.

### BRICK CHAPEL

The old Brick chapel, which stands against a background of grand old trees half way between Iowa City and West Branch, was for generations an outstanding land mark in this part of Iowa.

It is the property of the Methodist conference, but is dim, dusty and idle through winter and summer months. It must have been an impressive building among the pioneer homes of the district.

Main traffic, which once passed this way, has been diverted to the hard surfaced Herbert Hoover highway, one half mile north.

Its predecessor, a small frame structure, built about 1850, burned, and in 1855 the busy pioneers took time from their own pressing duties to make the brick from an adjacent clay bank for the building.

They sawed and hewed the oak lumber from the surrounding woods.

#### Donated Labor

Much of the labor of building was also donated by these Scott township farmers, and the business men of Iowa City contributed finishing lumber, nails, hinges and other necessities.

The leading men in the project of establishing this church were John Parrott, Isaac Bowen, Wm. E. Pratt, John Struble, Wm. Cozine, Mathew Teneyke, John Hindman, David Wilson and J. H. Hodges.

The comment of one of its most ardent supporters is "It was a typical Methodist country church where everyone was friendly."

Stones in its cemetery bear the family names of those who worked and sacrificed and later reaped the reward of valiant Christian living.

Twenty-five names remained on the church roll when in 1929 the charge was discontinued and memberships were transferred to Iowa City and West Branch.

## MOLBACK FARM CEMETERY

Section 27, Scott Township, Johnson County, Iowa

On the Harold Molback farm is his wife's grandfather and father of Robert Ford, who still lives there. This is located across Old Highway 6 (American Legion Road) from the Molback farm buildings. It is on a raised knoll, southwest, where a wild plum tree stands (1971).

Marker is for Robert FORD, Sr.

24 March 1863

Aged 59 years.

He came from Ohio when he was a boy, with another boy, Pat CONWAY. There is no tombstone or marker for Pat Conway, although he is buried there, too.

Harold Molback's phone is 351-6481.

## QUAKER CEMETERY

The Friends cemetery and two-room meeting house was located in Section 35, Scott township, Johnson county, Iowa. It was located in in the northeast corner of a field on the south side of U.S. Hiway 6. The landmark is three tall evergreen trees in a row along the fence line, parallel to the highway.

Following are excerpts from several histories which pertain to this meeting house and cemetery.

From Aurner's "Leading Events in Johnson County Iowa History" Volume I, published in 1912; page 383 --

The Society of Friends held meetings in the house of Mahlon Hollingsworth until in the autumn of 1868 when they decided to erect a meeting house on one of two sites which they had in view; one where the Franklin school house was later built, and the other where they finally concluded to locate. In the time of making the selection the points under consideration were nothing but native sod, and the decision was not an easy matter for those appointed to make the selection, Aquila Whitacre, Elijah Gregg, R. B. Sanders, Mahlon Hollingsworth, Poakley Monday, John Welch and Jonathan Gregg, who met upon the prairie to agree upon the location. Some difficulty arose in making the final decision, but it was not due to any differences among the committee personally, the choice being immaterial to some of them. In 1869 they had completed what they called half a house and thus it stood until the death of Aquila Whitacre who bequeathed a sum of \$500 to complete the other half. This meeting house is located in the southeastern part of Scott Township.

From "History of Johnson County, Iowa from 1836-1882"; page 756 --

Mr. Mahlon Hollingsworth furnishes the following sketches:

In the autumn of 1868 the society of Friends having held meetings at the house of Mahlon Hollingsworth for about a year, concluded to build a meeting house. They had two sites in view, one where the Franklin schoolhouse now stands, and the other where the meeting house stands; the sites were wild prairie at the time, and surrounded by the same. So the Friends decided on a day to go and view the two sites and make a choice of which they would build on. Aquila Whitacre, Elijah Gregg, R. B. Sanders, Mahlon Hollingsworth, Poakley Monday, John Welch, Jonathan Gregg, met and examined the grounds. They seemed to be about equally divided, so Elijah Gregg made a mark with his foot on the ground between the two sites, and they agreed to decide the matter by standing on each side of the mark. Elijah said he did not care which way it went, and he stood straddle of the mark; then there were only six left, and they were equally divided, but one concluded to come over, and it was thus decided to build where the house now stands.

On the 27th of first month, 1869, Friends were raising a subscription to build a meeting house, and not make three calls around to raise the money as it was wanted; and about the first of the fourth month, 1869, we had erected what we called half a house, at a cost of \$433.90, including the price of lot to build on. Aquila Whitacre, while on his death bed, third month, 1876, bequeathed the society \$500 to build the other end of the meeting house, which was immediately done, superintended by Mahlon Hollingsworth. The house is built on the northeast corner of the southwest quarter of section 35, township 79, range 5.

From "One Hundred Years of History, West Liberty, Iowa, June 29, 1938."

The Whitacre family attended Quaker meeting at the church located at North Prairie Cemetery. Later when this church was moved to West Liberty, a church was built a short distance east of the present Scott Church and on the Whitacre land. The bodies from the cemetery adjoining the church ground were moved some years ago to the North Prairie ground.

Excerpt from article by Mabel Leech in Iowa City (Iowa) Press-Citizen, Thursday, 9 August 1934 --

#### HIGHLAND MEETING HOUSE

Highland meeting house was erected in 1870 about half way between Iowa City and West Liberty on the Muscatine road, by a group of the Hicksite branch of Friends, who had previously met with others in West Liberty.

Aquilla Whitacre, an extensive land owner, gave a farm to each of his numerous children who settled in that section. He donated the ground and much of the required money for the meeting house.

Other family names prominent in the movement were Hollingsworth, Mundy, Hogue, Welch and Downs.

The exact date when the extremely simple type of worship ceased is not available, but the death of some and removal of other members from the neighborhood caused this scene of holy meditation and communion with God to drop into unbroken silence.

The building was finally torn down and used in the construction of two houses in Downey.

The wide grounds included a cemetery with more than a hundred graves.

In 1912 these bodies were removed to burying grounds where upkeep was assured. The majority were taken to the Friends cemetery north of West Liberty.
